TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter II—The Loyalty Review Board

PART 210—THE OPERATIONS OF THE LOYALTY REVIEW BOARD

AMENDMENT TO LIST OF SUBVERSIVE ORGANIZATIONS

The following is added at the end of Appendix A.

In a letter dated September 5, 1950, in response to inquiries from the Chairman, Loyalty Review Board, in which the designation of organizations pursuant to Part III, section 3, of Executive Order No. 9835 was discussed, the Attorney General has advised the Loyalty Review Board as set out below.

You have inquired specifically whether the designation of International Workers Order as a communist organization includes, as well, the national group societies of that organization. The original designation of International Workers Order, arrived at after appropriate investigation and determination, as provided by the Executive order, contemplated and was intended to include all of its subdivisions, subsidiaries and affiliates, however entitled. To clarify and remove any question as to the scope of the original designation of November 24, 1947, therefore, the following national group societies of International Workers Order are hereby specifically designated pursuant to Executive Order No. 9835:

American-Russian Fraternal Society.
Carpatho-Russian Peoples Society.
Cervantes Fraternal Society.
Croatian Benevolent Fraternity.
Finnish-American Mutual Aid Society.
Garibaldi American Fraternal Society.
Hellenic-American Brotherhood.
Hungarian Brotherhood.
Jewish Peoples Fraternal Order.
Polonia Society of the IWO.
Romanian-American Fraternal Society.
Serbian-American Fraternal Society.
Slovak Workers Society.
Ukrainian-American Fraternal Union.

In your recent communications you have requested to be advised whether the Boston School for Marxist Studies and the Pacific Northwest Labor School are to be considered as adjuncts of the Communist Party as were the several schools named in the letter of Attorney General Clark of November 24, 1947. A review of all of the evidence available establishes that the Boston School for Marxist Studies is in fact an adjunct of the Communist Party; likewise that the Pacific Northwest Labor School was in effect but another name for the previously designated Seattle Labor School; and that the Joseph Weydemeyer School of Social Science of St. Louis, Missouri, is likewise a Communist School. Therefore, pursuant to the mandate and authority of Executive Order No. 9835, the following schools are designated as adjuncts of the Communist Party:

Boston School for Marxist Studies, Boston, Mass.

Joseph Weydemeyer School of Social Science, St. Louis, Mo.

Pacific Northwest Labor School, Seattle, Wash.

In your letter of October 14, 1949, you refer to the activities of the members of the Partido del Pueblo of Panama within the Canal Zone. The Partido del Pueblo is operating as the Communist Party of Panama and it is hereby designated pursuant to the authority of Executive Order No. 9835.

In previous communications from Attorney General Clark there were designated the Ku Klux Klan, the Association of Georgia Klans, and the Original Southern Klans, Inc. I hereby designate within the same category the Associated Klans of America, an organization consisting of a merger of earlier Ku Klux Klan groups.

Also previously designated was the National Council of Americans of Croatian Descent. Subsequent to its designation this organization has effected a change of name. The designation applies alike to the new organization known as the Union of American Croatians. I also designate at this time as a Communist organization the American Branch of the Federation of Greek Maritime Unions.

In your letter of January 9, 1950, you inquire whether the designation of the Communist Political Association includes, as well, the constituent state and local groups, specifically the Peoples Educational and Press Association of Texas and the Virginia League for Peoples Education. The designation of the Communist Party, USA, and of the Communist Political Association includes not only the national organization but all state, local, regional and other subdivisions thereof. Therefore, the Peoples Educational and Press Association of Texas and the Virginia League for Peoples Education were included in the designation by Attorney General Clark in his letter to you of November 24, 1947.

It may well be that hereafter as well, from time to time, additional inquiry may arise as to the effect and scope of existing designations and in that event I shall be most happy to have you communicate with me.

PART 909—HANDLING OF ALMONDS GROWN IN CALIFORNIA

SALABLE AND SURPLUS PERCENTAGES FOR 1950–51 CROP YEAR

§ 909.200 *Almond salable and surplus percentages for the 1950–51 crop year—*

(a) *Findings.* (1) Upon the basis of estimates and the recommendation of the Almond Control Board, established and functioning pursuant to Marketing Agreement No. 119 and Order No. 9 (15 F. R. 4993) regulating the handling of almonds grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and other available information, it is hereby found that the designation of a salable percentage at 100 and a surplus percentage at 0 is reasonable and in accordance with the requirements of § 909.62 of said order. These are the same percentages recommended by the board. The board estimated that almonds to be produced during the 1950–51 crop year would be 37,000,000 pounds and that total trade demand taking into consideration economic conditions and the anticipated market price, within the limitations of the act, would be 38,500,000 pounds, which would result in a reduction of 1,500,000 pounds in handler carryover.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section later than three days after the date of publication of this section in the FEDERAL REGISTER. This action regarding salable and surplus percentages for the 1950–51 crop year with respect to almonds is necessary for the reason that shipment of the current crop of such almonds will soon begin, and it is necessary to have these percentages fixed as near the beginning of the crop year as it is practicable in order to regulate such shipments effectively. No preparation for this section is required which cannot be completed prior to this effective date. In addition, the effect of this action will be wholly for the benefit of the persons affected thereby. Therefore, good cause exists for not delaying the effective date of these regulatory requirements beyond three days after the date of publication of this section in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.).

(b) *Order.* The salable and surplus percentages for almonds, during the crop year beginning August 4, 1950, and ending June 30, 1951, shall be 100 and 0, respectively.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 20–9]

PART 20—PILOT CERTIFICATES

ISSUANCE OF PRIVATE AND COMMERCIAL PILOT CERTIFICATES BASED ON MILITARY COMPETENCE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 15th day of September 1950.

Currently effective Part 20 provides for the issuance of pilot certificates with private or commercial ratings and appropriate category, class, and type ratings on the basis of military competence to members of the armed forces of the United States and civilian employees thereof who are serving on solo flying status or who have been discharged therefrom within 12 months preceding date of application therefor. Generally, an applicant for a private rating may be issued such rating if he is currently serving with the armed forces or, if discharged, he has had at least 10 hours of solo flying in military aircraft within 12 months preceding the date of application, irrespective of the date of discharge. On the other hand, an applicant for a commercial rating must be on duty or, if discharged, must have served on active duty as a rated pilot for at least 6 months within 18 months preceding the date of application. Thus, no provision is currently effective which would authorize the issuance of a commercial rating to an individual who has been discharged longer than 12 months. In each instance he must pass an examination covering the provisions of Parts 43 and 60 of this chapter.

The Board has recently received requests for waiver of the time limits in which an applicant must file after discharge from former military pilots who did not apply for pilot certificates within the currently specified period but who have since found that the holding of civilian pilot ratings is essential to their livelihood.

This amendment provides for the issuance of pilot certificates with private or commercial ratings to members of the armed forces of the United States and civilian employees of the ferry or transport services thereof who have been on solo flight status as rated pilots or the equivalent (as currently provided) and to graduates of military flying schools who are considered to be technically qualified to act as rated military pilots but who, because of budgetary or other limitations, may not have served on active duty with the armed forces as rated military pilots. In addition, this amendment provides for the issuance of commercial ratings to such military pilots who have been discharged for a period longer than 12 months preceding the date of application therefor. (The current regulations provide for such issuance only to applicants for private ratings.) This amendment does not change the current rule with respect to the issuance of private and commercial ratings to military pilots who apply therefor during the time they are on ex-

tended active duty and within 12 months subsequent to their discharge or release, except to authorize graduates of military flying schools to apply for such ratings even though, as previously explained, they may not have served on active duty as rated pilots. Those ratings will be issued to such graduates on a basis similar to that established for other military pilots.

Provision is also made whereby subsequent to 12 months after discharge or release an applicant for a private pilot rating may be issued such rating if he has had, within 12 months preceding the date of application therefor, at least 10 hours of flight time as pilot in command in military aircraft. However, an applicant for a commercial rating who has been discharged or released for a period longer than 12 months preceding the date of application therefor will have to pass an appropriate flight test. Because of the privileges accorded the holder of a commercial rating, i. e., of carrying passengers and cargo for compensation or hire, we believe that former military pilots applying for a commercial rating who have been discharged or released for a period longer than 12 months should demonstrate, by passing a flight test, that they are competent to exercise those privileges safely.

Accordingly, a military pilot or former military pilot, if he passes a written examination covering Parts 43 and 60 of this chapter and applies for such rating within the periods specified, may obtain a pilot certificate with a private rating based upon military competence without taking the flight test required of all applicants for a private rating. An applicant for a commercial rating, on the other hand, will be relieved of taking the prescribed extensive written examination if he passes a written examination covering only Parts 43 and 60 of this chapter and applies therefor either while a member of the armed forces or within 12 months subsequent to the date of his honorable discharge or release therefrom, or graduation from a military flying school, or at any time subsequent to 12 months from the date of such discharge, or release, or graduation, if he passes a flight test.

This rule continues the current provision that an applicant for a particular aircraft category, class, or type rating either coincident with or subsequent to the original issuance of a pilot certificate with appropriate aircraft ratings on the basis of military competence or otherwise may be issued such aircraft ratings upon the submission of reliable documentary evidence that he has had at least 10 hours of flight time as pilot in command in military aircraft of the same category, class, and type for which the rating is sought. It also provides for the issuance of such ratings for each aircraft in which a flight test is taken.

It should be noted that the current requirements provide that the flight time acquired in military aircraft shall be either "solo flying" time or shall have been flown as "first pilot or as sole manipulator of the controls." To avoid using several terms having the same meaning, we are substituting in lieu of the aforementioned terms, the phrase "pilot in command." That phrase is currently defined in § 20.80 as meaning the pilot responsible for the operation and safety of the aircraft during the time defined as flight time, and includes flight time acquired as sole occupant of the aircraft, as first pilot, and as sole manipulator of the controls. Moreover, this amendment removes any possibility of interpreting the 10-hour "solo flying" time requirement for a private rating as meaning that such flight time must be acquired while the applicant was the sole occupant of the aircraft.

We realize that the issuance of pilot certificates on the basis of military competence is not dictated by safety considerations. However, we believe that the service of individuals as pilots in the armed forces of the United States may properly be recognized since by so doing the administrative burden of certificating those men by compliance with usual procedures is lessened and safety is not jeopardized.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 20 of the Civil Air Regulations (14 CFR, Part 20, as amended) as follows, effective October 20, 1950:

1. By amending § 20.55 to read as follows:

§ 20.55 *Military competence.* Pilot certificates and appropriate ratings granted on the basis of military competence shall be issued in accordance with the provisions of paragraphs (a) (b) (c) and (d) of this section.

(a) *Private pilot rating.* An applicant for a pilot certificate with a private rating shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and either is on solo flying status as a rated pilot or the equivalent or has, within 12 months preceding the date of application, been graduated from and rated as a pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces and was, at the time of such discharge or release, on solo flying status as a rated pilot or the equivalent or had been graduated from and rated as a pilot by a military flying school: *Provided,* That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by § 20.26, unless he can show that he has had, within 12 months preceding the date of application, at least 10 hours of flight time as pilot in command in military aircraft.

(b) *Commercial pilot rating.* An applicant for a pilot certificate with a commercial rating shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and has been on active duty on solo flying status as a rated pilot or the equivalent for a period of at least 6 consecutive months prior to the date of application or has, within 12 months preceding the date of application, been graduated from and rated as a pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces, and had been on active duty on solo flying status as a rated pilot or the equivalent for a period of 6 consecutive months preceding such discharge or release or had been graduated from and rated as a pilot by a military flying school: *Provided,* That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by § 20.36.

(c) *Aircraft category, class, and type ratings.* An applicant for a particular category class, and type rating who has applied for or holds a pilot certificate issued on the basis of military competence or otherwise shall be issued appropriate ratings upon the presentation of reliable documentary evidence that he has had, within 12 months preceding the date of application, at least 10 hours of flight time as pilot in command in military aircraft of a category, class, and type for which the rating is sought, or has taken a flight test.

(d) *Instrument rating.* An instrument rating shall be issued to an applicant who holds a currently effective military instrument rating if the requirements for the issuance of such a rating and the privileges authorized by it are not less than those of the Civil Air Regulations with respect to such rating.

2. By adding § 20.83 to read as follows:

§ 20.83 *Authorized representative of the Administrator* An authorized representative of the Administrator shall mean any employee of the Civil Aeronautics Administration or any private person, authorized by the Administrator to perform any of the duties imposed upon him by the provisions of this part.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, as amended 1008; 49 U. S. C. 551 and Sup., 552)

PART 22—LIGHTER-THAN-AIR PILOT CERTIFICATES

ISSUANCE OF PRIVATE AND COMMERCIAL PILOT CERTIFICATES BASED ON MILITARY COMPETENCE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 15th day of September 1950.

Currently effective Part 22 provides for the issuance of private and commercial lighter-than-air pilot certificates on the basis of military competence to members of the armed forces of the United States and civilian employees thereof who are serving on solo flying status or who have been discharged therefrom within 12 months preceding date of application therefor. Generally an applicant for a private certificate may be issued such certificate if he is currently serving with the armed forces or, if discharged, he has had at least 10 hours of solo flying in military aircraft within 12 months preceding the date of application, irrespective of the date of discharge. On the other hand, an applicant for a commercial certificate must be on duty or, if discharged, must have served on active duty as a rated pilot for at least 6 months within 18 months preceding the date of application. Thus, no provision is currently effective which would authorize the issuance of a commercial certificate to an individual who has been discharged longer than 12 months. In each instance he must pass an examination covering the provisions of Parts 43 and 60 of this chapter.

The Board has recently received requests for waiver of the time limits in which an applicant must file after discharge from former military pilots who did not apply for pilot certificates within the currently specified period but who have since found that the holding of civilian pilot certificates is essential to their livelihood.

This amendment provides for the issuance of pilot certificates to members of the armed forces of the United States and civilian employees of the ferry or transport services thereof who have been on solo flight status as rated lighter-than-air pilots or the equivalent (as currently provided) and to graduates of military flying schools who are considered to be technically qualified to act as rated military pilots but who, because of budgetary or other limitations, may not have served on active duty with the armed forces as rated military pilots. In addition, this amendment provides for the issuance of commercial certificates to such military pilots who have been discharged for a period longer than 12 months preceding the date of application therefor. (The current regulations provide for such issuance only to applicants for private certificates.) This amendment does not change the current rule with respect to the issuance of private and commercial certificates to military pilots who apply therefor during the time they are on extended active duty and within 12 months subsequent to their discharge or release, except to authorize graduates of military flying schools to apply for such certificates even though, as previously explained, they may not have served on active duty as rated pilots. Those certificates will be issued to such graduates on a basis similar to that established for other military pilots.

Provision is also made whereby subsequent to 12 months after discharge or release an applicant for a private lighter-than-air pilot certificate may be issued such certificate, if he has had, within 12 months preceding the date of application therefor, at least 10 hours of flight time as pilot in command in military aircraft. However, an applicant for a commercial certificate who has been discharged or released for a period longer than 12 months preceding the date of application therefor will have to pass an appropriate flight test. Because of the privileges accorded the holder of a commercial certificate, i. e., of carrying passengers and cargo for compensation or hire, we believe that former military pilots applying for a commercial certificate who have been discharged or released for a period longer than 12 months should demonstrate, by passing a flight test, that they are competent to exercise those privileges safely.

Accordingly, a military pilot or former military pilot, if he passes a written examination covering Parts 43 and 60 of this chapter and applies for such certificate within the periods specified, may obtain a lighter-than-air private pilot certificate based upon military competence without taking the flight test required of all applicants for a private certificate. An applicant for a commercial certificate, on the other hand, will be relieved of taking the prescribed extensive written examination if he passes a written examination covering only Parts 43 and 60 of this chapter and applies therefor either while a member of the armed forces or within 12 months subsequent to the date of his honorable discharge or release therefrom, or graduation from a military flying school, or at any time subsequent to 12 months from the date of such discharge, or release, or graduation, if he passes a flight test.

It should be noted that the current requirements provided that the flight time acquired in military aircraft shall be either "solo flying" time or shall have been flown as "first pilot or as sole manipulator of the controls." To avoid using several terms having the same meaning, we are substituting in lieu of the aforementioned terms the phrase "pilot in command." This amendment adds to the provisions of Part 22 the definition of that phrase which is the pilot responsible for the operation and safety of the aircraft during the time defined as flight time, and includes flight time acquired as sole occupant of the aircraft, as first pilot, and as sole manipulator of the controls. Moreover, this amendment removes any possibility of interpreting the 10-hour "solo flying" time requirement for a private rating as meaning that such flight time must be acquired while the applicant was the sole occupant of the aircraft.

We realize that the issuance of pilot certificates on the basis of military competence is not dictated by safety considerations. However, we believe that the service of individuals as pilots in the armed forces of the United States may properly be recognized since by so doing the administrative burden of certificating those men by compliance with usual procedures is lessened and safety is not jeopardized.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 22 of the Civil Air Regulations (14 CFR, Part 22, as amended) as follows, effective October 20, 1950:

1. By amending § 22.11 (i) to read as follows:

(i) *Military competence.* An applicant for a private lighter-than-air pilot certificate shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and either is on solo flying status as a rated lighter-than-air pilot or the equivalent or has, within 12 months preceding the date of application, been graduated from and rated as a lighter-than-air pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces and was, at the time of such discharge or release, on solo flying status as a rated lighter-than-air pilot or the equivalent or had been graduated from and rated as a lighter-than-air pilot by a military flying school: *Provided,* That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by paragraph (h) of this section, unless he can show that he has had, within 12 months preceding the date of application, at least 10 hours of flight time as pilot in command in lighter-than-air military aircraft.

2. By amending § 22.12 (j) to read as follows:

(j) *Military competence.* An applicant for a commercial lighter-than-air pilot certificate shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and has been on active duty—on solo flying status as a rated lighter-than-air pilot or the equivalent for a period of at least 6 consecutive months prior to the date of application or has, within 12 months preceding the date of application, been graduated from and rated as a lighter-than-air pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces, and had been on active duty on solo flying status as a rated lighter-than-air pilot or the equivalent for a period of 6 consecutive months preceding such discharge or release or had been graduated from and rated as a lighter-than-air pilot by a military flying school;

Provided, That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by paragraph (h) of this section.

3. By adding § 22.43 to read as follows:

§ 22.43 *Pilot in command.* Pilot in command shall mean the pilot responsible for the operation and safety of the aircraft during the time defined as flight time.

4. By adding § 22.44 to read as follows:

§ 22.44 *Flight time.* Flight time shall mean the total time from the moment the aircraft first moves under its own power for the purpose of flight until the moment it comes to rest at the end of the flight.

5. By adding § 22.45 to read as follows:

§ 22.45 *Authorized representative of the Administrator* An authorized representative of the Administrator shall mean any employee of the Civil Aeronautics Administration or any private person, authorized by the Administrator to perform any of the duties imposed upon him by the provisions of this part.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, as amended, 1008; 49 U. S. C. 551 and Sup. 552)
